

MEI TOOLS RE-SHARPENING SERVICE

GENUINE
PARTS

Zero compromise on quality.

MEI offers you the opportunity to **re-sharpen the milling tools 2 times** before replacing them, assuring **constant quality** over time and allowing you to **optimize costs**. This service is provided by specialized technicians working with **cutting-edge technology** in a dedicated department.

Our re-sharpened milling tools are **guaranteed to provide edging precision** and **extend the life of the tool** so it performs as if it was new. This service is to provide the **best quality** and to avoid possible damage to the edger and its components.

Re-Sharpening

Performance and Cost Saving

FIRST STEP
Check used tool

SECOND STEP
Re-sharpening

THIRD STEP
Verification of the
re-sharpened tool and
Quality Control
